Re: [name redacted]  
Date of Birth: [date redacted] 1995

To Whom It May Concern:

I represent Ms. [Teen], a minor who is approximately 16 weeks pregnant. At my client's request, I am writing to advise you that she is being coerced into having an abortion by her parents, [Mom] and [Dad]. [Teen] has advised me that her mother, [Mom], recently found out that [Teen] is pregnant. However, even though [Teen] is choosing to take her pregnancy to term and keep her baby, [Mom] and [Dad] are adamant that [Teen] have an abortion and have scheduled one for her *against her will*. [Teen] believes that her abortion has been scheduled for sometime in the coming week. Her mother has informed her that a two-day procedure is necessary and that she will be staying overnight somewhere to complete the abortion. [Mom] even went so far as to find out [Teen]'s FPA "password" so that she could have access to [Teen]'s private medical information. [Mom] apparently then took it upon herself to *change* the password because when [Teen] attempted to find out the details of her appointment and to cancel it, her password did not work. She was thus unable to access her own medical information.

On my client's behalf, I am hereby advising you that [Teen] does NOT wish to have an abortion. She does not wish to receive ANY medical treatment of any kind from your organization. Please be further advised that if her personal wishes are not respected concerning this pregnancy, that we will take all legal measures necessary to seek redress, including bringing a court action for damages.

Thank you for your anticipated cooperation.

Very truly yours,

D. COLETTE WILSON
