Orange County, California – Thirty pro-life leaders from around the United States have joined their hands and hearts in writing the final chapter to America's abortion holocaust.

Driven by the awesome reality that 50 million preborn Americans have been killed in the holocaust, Crusade for Life, Inc. launched a major pro-life initiative called the Abortion Holocaust Resolution Project (AHRP). Phase One of the Abortion Holocaust Resolution Project is the creation of strategic pro-life plans by each of the 30 pro-life leaders, giving each leader's assessment of the way to end the holocaust. This is the first step in drawing the pro-life movement into a functional whole, as each leader will then know exactly what the other leaders are thinking and are trying to accomplish.

Phase Two of the Abortion Holocaust Resolution Project will be a conference, tentatively scheduled for the spring of 2008, in which the 30 pro-life leaders will meet to create a unified, national strategy for the pro-life movement. This strategy will be aimed at bringing the 40-year holocaust to an end, and clearly establishing the right of every human being to be protected by law from fertilization until natural death.

The Abortion Holocaust Resolution Conference will be hosted by Crusade for Life, Inc., one of the oldest pro-life groups in the United States.
